## Renew or Upgrade Price?

Posted by rev.dennis - 2009/12/03 14:53

---

Is there a discount for continuing users of ARI Quiz? If we already paid the full price once, I am surprised that a discount or some sort of incentive doesn't exist for current subscribers to renew.

I'm at a cross road. I believe you have a great product but I have been getting more involved with vBulletin versus Joomla, but vBulletin doesn't have a Quiz product currently and well I already paid for yours and I like it and it is getting better but do I want to now pay another \$75 or do I go with a competitor who doesn't charge me every year.... What a dilemma.

Hello,

You don't need to pay for the component every year, it's require only if you want to get updates and support. If you want to prolong your subscription, it will cost \$40, you can read about it in our F.A.Q. section 4.

Regards,  
ARI Soft
