About full statistics

Posted by Federico - 2010/02/27 15:53

_____

Hello!

1) How to translate into my language question type at display of full statistics?

2) As the format (font-size) of display of line "Data Grid copes: template" of full statistics?

Regards.

_____

Hello,

1. Unfortunately now these labels can't be changes through UI interface, it can be changes in database table. These values are stored in #__ariquizquestiontype table in 'QuestionType' field.

2. Add the following CSS rule:

```
#dtQuizStat_pag
{
  font-size: 11px; // set necessary font size
}
```

Regards,
ARI Soft
