_____

I don't see two menu items with "knowledge assessments" in the top menu.  Just to confirm. You do see the menu that appears below the top menu?   When you say two items in "top menu" named "knowledge assessment"  do you mean one of them that is a category?   Sorry if I m not understanding. I appreciate your help.

David

_____

I made the adjustment to the top menu. I removed the Knowledge Assessments and it removed the tab in the menu but it created an issue with the slide show.  What can be happening here?  Do you think that this version of ariquiz could be causing these issues?

Thank you,
David

_____

This problem with Joomla! SEF and it is not related to "ARI Quiz" extension.

Regards,
ARI Soft
