
Quiz result of all accounts in One page

Posted by vdvunen - 2012/11/13 06:37

I want the following,

I want to create one page with the results of all persons on the frontpage.

And the person with THE highest score on top. How can I create that.

=====

Hello,

You can use "ARI Quiz Top Results" module. It is installed with the extension by default. If you want to show it on separate page, it is possible to load the module into an article. You can use "Content - Load Module" standard Joomla! plugin for this purpose or "Modules Anywhere" or "Module Plant" plugin.

Ok that works well. Only how can I get one page per person with all the results are added together and the one with the highest score at the top.

Could you provide image(s) where we can see what do you want to achieve? You can send it by email.
