
export and import questions

Posted by Masoodari - 2012/11/14 19:50

Hello :)

I bought ari quiz a few hours ago.

I want export questions (in xml format or another) from one instance ari quiz (joomla 1.7) and import this questions to another instance of ari quiz. but i didn't find any export option for questions(no for results).

please immediately help me. :(

thanks.

Hello,

"Import / Export" feature was temporary removed in "ARI Quiz" v. 3.x. Possible way to copy all questions using MySQL backup for appropriate database tables.

thank you, unfortunately this ari quiz 2.9.3 didn't install on joomla 1.7.5 and report error.
very much for your effort for me, please send me a correct version of ari quiz that work on joomla 1.7 and j1.5 that has complete Export/import feature.

very much. :)

best regards.

yes, v 2.10 report error that can not create admin menu (does not create admin menu really too) and when access ari quiz with enter its link, Export Feature does not work correct means that output xml file has 0 KB space.

Could you provide a temporary access to your J! backend by email so we can investigate the problem? v. 2.10.3 works fine on our test server.
