## Is it possible to send notices out?

Posted by danbo1972 - 2012/11/21 23:06

---

Hello all. I am trying to figure out if there is a way to send bulk emails out to let people know that a test is available.

I can do it with my regular email program I suppose, but what I was thinking might be available is a system generated email that would notify members that a quiz is available once it is set to publish based on the start date.

If not, is it something we might look forward to? ;)

Attn: "Member name"

This email is to notify you that a quiz on "quiz name" is now available for you to take. The quiz will be available until "end publishing date".

To access this quiz, (click here).

Hello,

It can be done as custom development or you can submit a feature request here and we will think about implementation this feature in a future release.

Regards,  
ARI Soft
