
user quiz history

Posted by aclm - 2010/03/26 15:59

First I have to say I love this component and it does almost everything I need.

Yet is there a way for a user to see their quiz history?

I know the Admin can see a quiz history of all users but I need individual users to see the their own results of previous quizzes taken.

This is something I need urgently.

Any ideas?

Thank you,

aclm

Hello,

Registered users can view their previous quizzes results. If you want to create menu item for quizzes results page, you can create menu item type with 'External Link' type and enter the following url `index.php?option=com_ariquiz&task=quiz_stat` or you can download the component again from 'Member Area' on our site, re-install it and choose 'Internal Link->ARI Quiz->Results->Quizzes Results' menu item type.

Regards,
ARI Soft

Great that is a life saver for me.

Thank you very much!

Cheers,

Aclm
