
Send email to user after complete quiz

Posted by BSP - 2010/03/27 21:12

Hello

I want AriQUIZ to send the email at quiz completed and not show the "Email" button.
Is this possible?

Thanks

=====

Hello,

Do you want to send mail to specific email(s), for example admin email(s), or to an user who passed a quiz?

Regards,
ARI Soft

Unfortunately the component doesn't provide this ability, currently user can receive a mail only if clicks by 'Email' button, but you can submit feature request here and we'll implement this feature in the next version of the component.

Ok, thanks!!

Other question related to this is if I can remove at least the top "Email" button.

Currently you can remove the both "Email" buttons if set "Mail template" to "None" or you can remove only necessary button, but it requires editing template.

Which template are you referring to? I would also like to remove the second set of print/email buttons

You can edit the following template file:

/components/com_ariquiz/view/quiz_finished.html.php

Regards,
ARI Soft
