## How to add more choices to Multiple choice?

Posted by ivanjones - 2008/11/08 21:30

---

Thanks for the quick response to my previous posts!

I'd like to create a Multiple Choice question that has 4, 5 or 6 possible answers, one of them being correct.

When I select the question type "Multiple Question", I'm only allowed to create 3 possible answers. How do I add more options?

Thanks.

Ivan.

While creating question there are three answers by default. Simply pressing plus sign ("+") you can add more answers - as many as you wish. Please let us know if you need more assistance with it.
