
Possible to randomise order of possible answers?

Posted by ivanjones - 2008/11/09 17:14

Supposing I create a question "Select the Animal:"

Door
Chair
Dog
Apple

Is there anywhere to select an option for the possible answers to appear randomly each time the quiz is run?

For example

Apple
Dog
Chair
Door

Dog
Chair
Apple
Door

Thanks. Apologies again if I have missed this option somewhere. (I did look!)

There is no such functionality for now. Could you please submit feature request here and we will think about adding this functionality in the future.

Hello,

ARI Quiz 2.2.0 has been released.

New version contains several new features and enhancements:

- * Single, Multiple and FreeText question can have different scores for different answers
- * Single question may display possible choices as radio buttons or as drop-down
- * Single, Multiple, Correlation and Drag'n'Drop Correlation questions have Randomized order setting that allows displaying possible choices in random order
- * Last results and Top results modules have 2 new options: ignore anonymous users or not, display login or user name
- * UI enhancements for Drag'n'Drop Correlation question
- * Bugs fixed
- * Performance improvements
- * German and Russian translations updated

ARI Quiz 2.2.0 may be downloaded in member area.

Regards,
ARI Soft
