
Limitate application of quiz

Posted by visionweb - 2008/11/10 01:34

Is there a way to limitate the application of a quiz until you have passed some previous quiz? By example, I created level 1 quiz and level 2 quiz, I'd like the user to take the level 2 quiz only after he has passed level 1 quiz.

Thanks.

There is no such functionality. Please submit feature request and we will let you know when we decide to add this.
