Login Form

Posted by enginbasturk61 - 2013/09/28 13:06

_____

Hi!

When a user is not log in, it say

You do not have persmissions to take this quiz

Instead of this can we add login form there. I mean when a user in not login so the login form will come..

_____

Hello,

It requires modification of the extension.

As possible solution, you can change error message and add a link to a login form to it.

_____

Hi,

Would request, if you let me know if I can change error massage from Admin component area? Is there any option!! or I need to make change in the component code ?

Thanks in advance,

Suparnog

_____

Hello,

You can read here how to change existing translation.

Regards,
ARI Soft
