
i want multiple questions per page in ari quiz

Posted by anandkumar - 2010/05/27 12:43

hello

i want multiple questions per page in this ari quiz component is there any modification for this feature.
Please give me replay ASAP.

Thanks,
Anandkumar.

Hello,

We are implementing this feature and it'll be available within 1.5 - 2 weeks.

Regards,
ARI Soft

Hi, we are needing this feature as well, will this be implemented soon? We're working on a "quiz" that has a list of 10 questions with a pulldown next to each question to choose "Yes/No", and needing it so that the quiz taker can go down the 10 questions choosing from the yes/no pulldowns and then at the bottom click "Save".

Thanks!

Hi,
I 'am interred by these features ("Yes/No" chose) and multiple questions per page.

Someone know if these features are availables?
