
License key help please

Posted by ivanjones - 2008/11/16 19:42

Hi,

I'm now ready to install on to the live site.

I entered the domain name, however I included the "http://www", the license key I got does not work in the site :(

Please could you reset the license or send me a new link?

Thanks

Ivan.

Hello,

We have deleted your license key. You can generate new license key.
