
ARI Quiz and AlphaUserPoints Configs

Posted by dn0616 - 2014/01/21 20:18

Can Alphauserpoints be awarded "per quiz" using the available plugin/rule? If so, how is this accomplished?

Thanks in advance?

Hello,

"ARI Quiz" can be integrated with AlphaUserPoints via "ARI Quiz AlphaUserPoints" plugin and it uses the same settings for all quizzes. It doesn't support ability to set different points for different quizzes.

Regards,
ARI Soft

But can I set the AlphaUserPoints only count specified quiz categories?

This feature can be implemented as a custom development.
