## Page blank if 3 seconds to time-out

Hi.

I'm using 2.9.3 of ARI Quiz and Joomla 1.5.18 and questions with 30" time-out.

If I save my result before time-out is under 3" it's all ok, but if I wait until time-out is 3 or less seconds when I clic "save" appears a white page.

If I use one PC with internet slow, the white page appears in time-out is -5".

Why?

Thank'you for help.

Hello,

Could you provide temporary access to your Joomla! backend by email that we can investigate this issue because we can't reproduce it on our test server?

Regards,

ARI Soft
