can use same license for both prod&staging server.

Posted by magesh - 2010/06/15 11:31

———————————————————————

Hi

If I purchase ARI Quiz component for staging server then Can I use same component for production server also?

Thanks

Hello,

We can provide license for staging server for free.

Regards,
ARI Soft

Hi,

Thanks for you quick reply.

Now we are working on staging server only once the project complete, we need to move on production server(client) as of now we dont know the production domain for that if I have purchase ARI Quiz(not ARI Quiz Lite) for staging server then after moving to production whether ARI Quiz will work or not?

Thanks
Magesh

———————————————————————

In this case, you can buy the component and say domain name of your staging server that we can provide license for it. When you go to production, you can generate license for production domain in 'Member Area' on our site.

Hi

For production, if I generate license from the member area then can I have to pay any extra money?
