
\ "Action processing failed\" but mail is sent

Posted by niesomaticus - 2014/04/03 15:15

Hello,

by clicking the "send-mail-button" at the end of a quiz I get the message "Action processing failed". That's confusing because the mail is sent and arrives at my postbox.

Can you tell me why I get this error message? :huh:

King regards
Niesomaticus

Hello,

Could you provide a link to a quiz where we can see the problem and a temporary access to your J! backend by email so we can investigate it?

Regards,
ARI Soft

Ok, that works :)

Thanks and king regards
