## Lining up checkboxes and text

Hi  
I can't see how to line up the radio buttons with the answers in my quiz.  
I assume it's in the CSS, but not sure where/what to change. Can you advise, please?

Thank you

Hello,

Send a link to a page where we can see the problem. It can be a problem with site template styles.

Add the following CSS rule to a site template CSS file:

```
.ariQuizQuestionTable LABEL
{
  display: inline-block;
}
```
