## Continue Botton does not work (URGENT)

Posted by Mauricio Cacciavillani - 2014/04/13 12:27

---

Hello,

How are you ari? I have been using your app for a few months so far and i got a really big problem today.

I realize that exams are not starting when i click on continue.

Due to trademark issues i have moved my site to another domain lately.

Can you please look into it? Below and exam where you will see what i say.

<http://newinpm.com/exams/free-exam-no-subscription-needed>

I have created an admin profile for you.

username: \*\*\*

password: \*\*\*

Please help me my students just went crazy!!

Sincerely,

=====

Hello,

It is not possible to login on frontend part of your site. It seems SEF is configured an incorrectly on your site. Probably this problem with rules in .htaccess file.

Regards,  
ARI Soft

Hello,

I really appreciate your support on this sunday!!

I do not really understand what you said?

I can logging into my site and other people can!!

The site is

[newinpm.com](http://newinpm.com)

Here is the link to the admin area

<http://newinpm.com/administrator/>

I granted you special credentials.

I am willing to tip you guys if you help me here!!

Hello

I changed the domain name from

justcapm.com to newinpm.com

and it seems to be working now!!

Did you touch anything?

Thanks you for your help!

We did nothing, but it seems this is a problem with SEF extension.

Its solved!!

I changed the domain name!!

Thanks a lot!!
