
Quiz question \"Loading\"....but nothing happens.

I've been running ARI Quiz for about 4 without a problem. Recently, when taking a 75 question quiz, about every 7-9 questions, just 'Loading' appears but the next question never shows up. If I 'Refresh' the web address in the URL back and click 'Continue', it get back to where I left off. But up until 3 days ago, I could go through all 75 questions without this problem. Also, in Firefox, a message that 'Cannot connect to server' shows up, but haven't seen that message in Safari, just 'Loading'....

thanks for any help.

Hello,

It can be a problem with a 3rd party extension. Send a link to a page where we can see the problem and your order number by email.
