How to customize the existing flow of questions

Posted by qedquest - 2014/09/12 08:46

_____

Hi,

Here is what my requirement,

Consider a quiz category have 3 question banks,   The user have to answer minimum required questions of each bank type. Only then he moved to the next set of questions (from other question bank). Is it possible to achieve this using ARI Quiz extension.

Can anyone suggest the required flow or changes to made in core files. We also noticed the JS files like encrypted.

Thanks for your time and consideration.

_____

Hello,

The extension doesn't support this ability.

Regards,
ARI Soft
