
csv import for questions in ari quiz

Posted by amitvns04 - 2014/10/08 10:45

sir I have 2 problems for csv

1. is there any size limit of csv files, when i try to upload a csv file containing about 600 questions, an an error occur.....
but when try to upload 100 question file, it successfully uploads.
pls tell me how to increase such size limit.

2. should header row in csv files case sensitive?

Hello,

1. Increase value of "memory_limit" PHP parameter. You can find the possible solution how to do it here.

2. Yes, it is case sensitive.

Regards,
ARI Soft
