## Page Information

Welcome.

I wanted to ask if you can paste into a test page that does not contain a question, and the only information. The test displays one question on the page.

Example: Question 1, Question 2, Question 3 ..... Page Information, Question 21, Question 22 ...

It is possible that the points were counted in the whole of this test.

Regards :blush:

Andrzej

Hello,

Sorry, but currently the extension doesn't support this feature.

Regards,

ARI Soft
