Is it possible to have a simple thank you for completing the exam/test at the end rather than having to view all the results?

many thanks in advance.

Hello,

It is possible to show any custom text template at the end of a quiz. It is also possible to use different template for different quizzes and show different templates based on earned score.

Regards,
ARI Soft

Thanks for the quick response. I suddenly realised what I was missing about ten minutes after I posted the questions!

All sorted.
