Hello,

You can see the bug on this page exercise 6

<http://casedesmaths.net/le-coin-des-ts/qcm/2-QCM02Probabilites/Question-2-4df4aad6b0ac16ba3d678cdb22f6f6d6>

Ce qui devrait s'afficher est ici :

<http://casedesmaths.net/le-coin-des-ts/364-dess-qcm-pour-les-ts>

code of snippet :

On a n fois, de façon indépendante, l'expérience «2» qui comporte 2 issues :

- «3» considéré comme succès, de probabilité $(p=\frac{1}{4})$
- «5» considéré comme échec, de probabilité $(q=1-p=\frac{3}{4})$

Nous sommes donc en présence d'un schéma de Bernoulli et la variable aléatoire (X) prenant pour valeurs le nombre de succès obtenus suit la loi binomiale de paramètres (n, p) et (n, q) notée $(\mathcal{B}(n; p))$.

Pour tout entier (k) $(0 \leq k \leq n)$, on a $P(X=k) = \binom{n}{k} \times \left(\frac{1}{4}\right)^k \times \left(\frac{3}{4}\right)^{n-k}$

Hello,

Questions are loaded via AJAX and it doesn't call system plugins for questions content. Some content plugins can be used in question text if "Additional settings -> Parse plugin tags" parameter is enabled in quiz settings.

hello,
It's about nonumbersnippet component
It seems it does not work....

It doesn't work because it is not a content plugin. It is a system plugin.

Hello,

I don't understand.
An example here:

<http://casesdesmaths.net/le-coin-des-ts/qcm/2-QCM02Probabilites/Question-2-278e13101dafb1515b16c71eb501da44>

nonumbersnippet works on the field question
but nonumbersnippet don't work on the field answer ...

An idea ?

Thanks

Hello,

The extension supports ability to use content plugins into questions (only question text) if "Parse plugin tags" parameter is set to "Yes" in quiz settings (some plugins mat not work). The extension doesn't provide option to execute content plugins in answers.

Hello,

Is it possible to have this option in your future version ?
Also is it possible to have templates examples for the questions ...
I want to differentiate levels.

Thanks
