
Pass Fail Redirect...

Posted by billh210 - 2015/01/05 06:34

I was posed a question, is it possible to have a quiz to where if the person passed they could be redirected to another page to register for something else. If fail they would be directed to try and take the test again at a set time...

Hello,

It is possible to use "ARI Quiz Redirect" plugin to redirect to different pages when specific quiz(zes) are failed or passed successfully.

Thanks for the fast reply.
I do not see that plugin, I downloaded the lite to take a look.

The plugin is available only for "ARI Quiz". It doesn't available for "ARI Quiz Lite".
