
Question templates

Posted by alejoas - 2015/01/07 16:09

Hello, I believe in templates question (yes, no, n / d). How I can apply this template to the questions I am creating?
Another question, questions with checkbox, how can I put online and not being one below the other?

Thank You.

=====

Re:Question templates

Posted by admin - 2015/01/07 17:08

Hello,

1. Create a question template in "Question templates" section on component backend and then choose "Based on question template" tab in popup which appears when "Add question" button is pressed on quiz questions page and choose the question template:

<http://www.ari-soft.com/images/fbfiles/images/template.png>

2. Add the following CSS rule to a site template CSS file and clean browser's cache:

```
#ariQuizContainer .aq-singlequestion .aq-answer-container {float:left;}
```

Regards,
ARI Soft

Posted by alejoas - 2015/01/07 17:50

Thanks for answering so quickly.

Another question: How I can delete the number of responses ?. The idea is to put the checkbox followed without callback number.

Thank You

Re:Question templates

Posted by alejoas - 2015/01/07 18:01

Thank you <http://www.ari-soft.com/images/fbfiles/images/question.png>

The question at first, sorry

=====

Re:Question templates

Posted by alejoas - 2015/01/07 18:03

I modified what you have shown me in css, but it looks bad in Mozilla firefoz and looks properly in Google Chrome

=====

Re:Question templates

Posted by admin - 2015/01/07 18:38

Where we can see the problem?

Regards,
ARI Soft

=====

Re:Question templates

Posted by alejoas - 2015/01/07 18:49

I've solved the sight in both browsers.

web

I would remove the numbers of responses
responses and bind to some
Thank You

=====

Re:Question templates

Posted by admin - 2015/01/07 19:04

Add the following CSS rule:

```
BODY #ariQuizContainer .aq-answer-container .aq-answer-label LABEL {display: none;}
```

Regards,
ARI Soft

=====

Re:Question templates

Posted by alejoas - 2015/01/07 19:26

Can bind more responses, ie, not much space there

Thank you very much

=====

Re:Question templates

Posted by admin - 2015/01/08 08:05

The previous link is not available now. Could you provide a link to a page where we can see a quiz?

Regards,
ARI Soft

Re:Question templates

Posted by alejoas - 2015/01/08 09:02

the link has been repaired

Re:Question templates

Posted by alejoas - 2015/01/08 12:13

In an example of this component name and email requests for access,
How can you do this ?.
And once the test, you can send the result by email?

Re:Question templates

Posted by admin - 2015/01/08 13:46

Set "Access and Security -> Anonymous access" parameter to "No" or "By user's wish" value in quiz settings.

If you want to send a mail at the end of a quiz to an administrator, enter administrator email in "Results settings -> Notification email(s)" parameter and choose a mail template in "Results settings -> Template" parameter.

Regards,
ARI Soft

Re:Question templates

Posted by alejoas - 2015/01/08 13:57

It would send an email to the user who has performed the test

Re:Question templates

Posted by admin - 2015/01/08 14:02

Select mail templates in "Results settings -> Choose template type -> Mail successful template" and "Results settings -> Choose template type -> Mail failed template" drop-downs in quiz settings. If you want to send mail automatically, set also "Results settings -> Auto send mail" parameter to "Yes".

Regards,
ARI Soft

Re:Question templates

Posted by alejoas - 2015/01/08 18:53

I've done everything you specified in Mozilla Firefox and not allowed to enter Name and Email and Google Chrome if allowed.

An access button is not displayed.

Attached image

You can send by email as well as success and failed template?

Thank You.

Re:Question templates

Posted by admin - 2015/01/08 19:02

Check that the previous quiz session is completed.

Regards,
ARI Soft

Re:Question templates

Posted by alejoas - 2015/01/08 19:16

I do not understand what it tells me.
Sorry

web
Link "Caidas al mismo nivel"

Re:Question templates

Posted by admin - 2015/01/08 20:30

For example you started a quiz, but don't complete it (close a browser, navigate to another page and etc.). In this case complete the quiz session and start a new one to see "name" and "email" fields are enabled.

Regards,
ARI Soft

Re:Question templates

Posted by alejoas - 2015/01/09 09:03

But still do not see an access button

Re:Question templates

Posted by admin - 2015/01/09 11:15

The quiz (by the link which you sent) are loaded fine for us in Google Chrome and FireFox browsers and it loads without quiz description page.

Could you explain how to reproduce the problem?

Regards,
ARI Soft

Re:Question templates

Posted by alejoas - 2015/01/09 11:22

This is the link and the access button is not displayed to quiz

I want every user accessing the web enter your name and email to subsequently send the results.

Thanks

=====

Re:Question templates

Posted by admin - 2015/01/09 11:25

Check value of "Access and Security -> Access" parameter in quiz settings. If you want to grant access for guest users, set it to "Public" for example.

Regards,
ARI Soft

=====

Re:Question templates

Posted by alejoas - 2015/01/09 11:47

Anonymous access = no

In Access option:

If I put "public" without asking I access user data.

But I put "guest" asks me user data (this is the one I want) and no shows the access button.

Other question....You can change the date format to dd / mm / yyyy?

thanks

=====

Re:Question templates

Posted by admin - 2015/01/09 12:47

"Access" parameter is used to specify an access level (it contains user groups) and only users from the user groups which are included into the selected access level will have access to the quiz.

Where you want to change date format (text template at the end of a quiz or other places)?

Regards,
ARI Soft

=====

Re:Question templates

Posted by alejoas - 2015/01/09 13:04

En template text.... {\$StartDate}...format dd/mm/yyyy

In the example of your website name and email which asks user to enter a quiz.
What steps should I take to do the same as the example of your web ?.

Anonymous access = No.
And public access ... enters the quiz without asking for user data.
But I put guest access requests access data but shows no button to access the quiz.

I use the Google translator do not know if I'm explaining well.

Thank You.

=====

Re:Question templates

Posted by admin - 2015/01/10 08:09

Use {\$StartDate|date_format:d/m/Y} and {\$EndDate|date_format:d/m/Y} variables in text templates.

About problem with access, could you provide a temporary access to your J! backend by email so we can investigate it?

Regards,
ARI Soft

=====

Re:Question templates

Posted by alejoas - 2015/01/10 09:25

Sent to your email login details

=====

Re:Question templates

Posted by admin - 2015/01/10 10:16

Try now. According to your Joomla! settings, guest users had "Public" user group, we changed it to "Guest" user group.

Regards,
ARI Soft

Re:Question templates

Posted by alejoas - 2015/01/10 11:29

Many thanks for the help

=====

Re:Question templates

Posted by alejoas - 2015/01/10 20:37

Hi, in the final report of quiz and the explanation can be given information based on the response?

Thank You.

Re:Question templates

Posted by admin - 2015/01/10 20:48

It is possible to show different text template based on earned score in percent. Use "Result scale" for this purpose.

Regards,
ARI Soft

Re:Question templates

Posted by alejoas - 2015/01/11 20:42

Hello, when I enter a quiz (name and email), and then validate the quiz shows the message "At a minimum, you must provide the email address of a recipient". Mail is received correctly.
I've been looking and can not find where you can remove this message.

Thank You.

Re:Question templates

Posted by admin - 2015/01/11 20:51

This message is show by Joomla!. Could you provide a link to a quiz where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft

Re:Question templates

Posted by alejoas - 2015/01/11 21:03

send by email

Thanks

Re:Question templates

Posted by alejoas - 2015/01/12 13:31

the program is good, but the support is much better.

Thank You.
