Hello,

Thanks for your interest in ARI Quiz component. Please see our answers below:

1. If you are going to use the component over your LAN you probably will be using the same IP address to access the machine where ARI Quiz will be installed. So there is no problem, we will give you the license for this IP.
2. Once you purchase the product, you will receive the download link by email very soon.
3. The license does not constraint number of clients using ARI Quiz. The speed of component work for multiple users depends on you server capability.
4. Once you purchase full license (1-year license) you can use the product for any time you want. It will not stop working after a year. After a year if you don't want to prolong the license you will just stop receiving free updates.
5. Where exactly do you need the minutes to be displayed? Do you need just minutes or minutes + seconds?
6. We don't offer a trial version. You can have a look at the component in action on both our demo servers:  
for Joomla 1.5: [http://demo2.ari-soft.com/index.php?option=com\\_ariquiz&Itemid=53](http://demo2.ari-soft.com/index.php?option=com_ariquiz&Itemid=53)  
for Joomla 1.0.x: [http://demo.ari-soft.com/component/option,com\\_ariquiz/Itemid,13/](http://demo.ari-soft.com/component/option,com_ariquiz/Itemid,13/)

Also please have a look at back-end functionality.

We are providing temporary license for two weeks. If you are unable to run ARI Quiz component on your system in this time (with or without our help) we will give you a refund.

Regards,  
ARI Soft
