## Access error another user

Posted by Marsm - 2015/01/22 15:01

---

Hi,  
sometimes users get this error while making a quiz:  
/Quiz\_Warning?msg=COM\_ARIQUIZ\_ACCESSERROR\_ANOTHERUSER.  
Can you tell me what this error means, when it occurs and what to do to prevent this error?  
Thanks,  
Marsm

Hello,

The error occurs when one user try to get access to quiz session of another user. It can occur if one user gets a link to own quiz session to another user or if a user is not logged in on the site and try to get access to previous quiz session.

Regards,  
ARI Soft
