
New questions appear in the test only a day later

Posted by grinani - 2015/02/01 09:24

When I had added some new questions to the test and started doing it (eager to see how it works), I still saw only the first ones. The new questions appear in the test only about a day later or so. It used to be a year ago, too.

Hello,

Complete the previous quiz session and start a new one.

Regards,
ARI Soft

thanks a lot. it seems to me I have completed it. does it mean to finish the test? I have deleted the quiz results, too. i started doing the test again after I had finished the previous attempt. I have even cledn cashe on the site. What do I have to to to finish the session?
Thanks in advance.

We mean to provide answers to all questions (save answers using "Save" button) when page with quiz results is shown or if "Terminate" button is pressed.

Could you provide a link to a quiz where the problem occurs, specify what question(s) are not shown and grant a temporary access to your J! backend and send it by email?

Regards,
ARI Soft
