
Export results quizzes questions and answers?

Posted by valentoni - 2015/02/16 19:01

Hello, is there any way of exporting to excel questions and what users have responded to the questionnaire?

If I click on "Quizzes Result", after selection the quizz and would I click on "To Excel" only shows me Quiz name, User, email, Question Count, Passed, Start Date, End Date

I would like to export what every user has answered every question.

It can be done?

Thank You

Hello,

We can implement it as a custom feature. If you are interested in it, contact us by email and we will discuss details.

Will this be implemented in the next version?

I thought the exporting to excel would have included the user answers to the questions as well.

Thanks

We will implement it in version 4.x. If you need this feature urgently, we can implement it as a custom development.

What is the release window for version 4?

I can probably wait 3 months before my client will need the feature for their reporting.

I updated AQ! Quiz to 3.9.4 a little while ago after our last quiz campaign thinking that the that the question answers would now be included with the exporting of the results.

After some testing now I see it is not.

Do you plan to release ARI Quiz 4 soon as we will need to export the question answers along with the final results for all the people who took the quiz?

Also is their anyway to include the extra fields data as well (
/components/com_ariquiz/models/forms/quizform/guestform.xml)as this is how we collect email addresses, etc. and we

need the info included with the export?

Thanks

The extension doesn't add questions and answers to CSV report. Add this functionality to a future version, sorry, but currently we don't have an exact date when it is available.

Name and email is added to CSV report.

Hmmm we need this information as the answers to the questions are just as important as the final result. Is there any way you can add just this feature to the current version like you did for us a year and a half ago?

Re:Export results quizzes questions and answers?

Posted by BurlingtonGreen - 2017/01/30 14:58

FYI

I found a minor bug on Friday in ARI Quiz when I was looking at the CSV Report export (the modified ari quiz 3.9.4 you sent us that includes the questions and answers in the report). It doesn't calculate the Spent Time column properly. It calculates fine in the regular CSV export. Not critical, but I wanted to let you know.

I currently have AQI Quiz 3.9.4 installed and I see you are up to v3.9.17. For the reports, does the latest version have the question and answers included with the exporting of the results?

If not could you create a modified version of 3.9.17 so I can update to the latest version?

Thanks

Re:Export results quizzes questions and answers?

Posted by admin - 2018/11/06 19:35

Sorry, but v. 3.9.17 doesn't contain this feature.

PS: Could you send your custom component by email?

Re:Export results quizzes questions and answers?

Posted by BurlingtonGreen - 2018/11/06 21:39

Okay I emailed you just now the modified 3.9.4 version you had sent me before. If it is not to much to ask, I hope you can send me back a modified 3.9.17 with the updated export. :-)
