Few questions before purchasing this awesome compo

Posted by haisesasaki - 2015/02/19 02:43
_____

Hi I just have few questions before buying your product.

1. Is it possible in a quiz with time limit to reveal answer after each questions?
2. Possible to rename button? instead of Save, i will put on submit?
3. I'm from PH and have no idea purchasing online (my first time).

Oh wait and I'm using Joomla! 3.2.2. Will there be any problems? compatibility issues?

Thank you!

Hello,

Thank you for your interest in our extension. Regarding your questions:

1. The extension can show correct answer(s) immediately after a user answer.

2. All text messages (labels) can be changed easily. They are located in language files.

3. The purchase process is described here. We are working with 2CheckOut payment gateway. It accepts credit cards and PayPal payments. If you need any assistance, let us know.

The extension is compatible with Joomla! 1.5, 1.6, 2.5 and 3.x.

Regards,
ARI Soft

Just purchased Ari Quiz! :) I have some problem. I don't know if I will uninstall the Lite, so I just installed the AriQuiz and the Lite automatically changed. All my tests are in there but when I tried it I got an error. Please see attached file :(((

_____

Create menu items for "ARI Quiz" extension (it seems you use menu items which were created for "ARI Quiz Lite").

PS: "ARI Quiz Lite" can be uninstalled.

Regards,
ARI Soft

I didn't uninstall ari quiz lite. When I installed ARI Quiz, it overwrote AriQuiz Lite.. okay, will try it.

_____

No Ari Quiz in the menu item? just Ari Quiz Lite :/ but I'm sure I installed Ari Quiz cause the "Ari Quiz Lite" under Components became "Ari Quiz" http://www.ari-soft.com/images/fbfiles/images/hmm.png

_____

Scroll menu with available components to the bottom. It can be located at the end of the list with name "ariquiz".

Regards,
ARI Soft

_____

Read here how to modify an existing translation or create a new one. Button labels are located in /language/en-GB/en-GB.com_ariquiz.ini file.

About problem with "Show correct answer" option, could you send a link to a page where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?

Regards,
ARI Soft
