Get the quiz with and / or user

Posted by alejoas - 2015/03/02 12:09

_____

Hi, I have done quiz with access by username and email and everything is going well.
But I want an anonymous user can enter without entering data for the quiz.
Is it possible?

Thank You

_____

Hello,

Set "Access and Security -> Anonymous access" parameter to "Yes" in quiz settings.

Regards,
ARI Soft

_____

Hello, but this option removes the entry name and email.
I want to introduce two options data or anonymous

Thanks

_____

If want to show the form with name and email fields for guest users, but do these fields not obligatory then set "Access and Security -> Anonymous access" parameter to "By user's wish" value.
