After finished the test, I pressed "save button" but nothing happen. I click on view result and get the result as the pic attached. Is there any problem with ari quiz or my server is failed? http://www.ari-soft.com/images/fbfiles/images/ari_quiz-eac91df0e869e7f5b13d77ef6a6734b9.jpg

Hello,

Could you provide a link to quiz results page where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?
