User reviewing past quizzes

Posted by The Cheadle Academy - 2015/03/30 12:57

_____

Hi,

One thing that I have noticed is that users can review their quiz results on the Your Quiz results module, however if they click on the quiz title it doesn't appear to go anywhere. Is this normal? As it would be great if they could click on all these quizzes and then go back into the quiz to look at what they have done well / areas to improve.

_____

Hello,

Set "Show links to quizzes" parameter to "Yes" in module settings.

Regards,
ARI Soft
