Hello,

Do you have any problem when add this code into questions?

PS: "Additional settings -> Parse plugin tags" should be set to "Yes" in quiz settings.

hello,

Parse activated the plugin tags in quiz quiz settings in the text put {mp4}example{/mp4} and the video does not work, is appearing as text {mp4}example{/mp4}. Is there some setting?

Could you provide a link to a quiz where the problem occurs and a temporary access to your J! backend by email so we can investigate the problem?
