## Exporting all questions etc

Posted by munchman - 2015/05/21 10:13

---

Hi, Im reworking my site on another server and need to effectively export (or copy) all of my ariquiz. I have already installed Ariquiz for my updated site without issue. My questions are all audio so Ive easily managed to copy the media folder and copy using ftp, I just need to replicate my ariquiz with as little fuss as possible.

any help appreciated

BW, Ben

Hello,

The extension supports ability to export/import questions to/from CSV format.

If you want to copy all data from one server to another, copy database tables with #\_\_ariquiz prefix and then install the extension on a new server.

Regards,  
ARI Soft
