
Results: Incorrect Number of Question

Posted by brimatel - 2015/07/07 05:17

Hi,

After a user answers 20 questions from a quiz, the result table displays incorrect number of question

its could give a result (8/12) whereas it should be 20 questions

pls see attachment (i answered 20 questions) <http://www.ari-soft.com/images/fbfiles/images/arierror.jpg>

Hello,

8 / 12 it is not a number of questions, it is number of earned points by a user and maximum points for a quiz. It seems "Score" parameter is set to 0 for some questions in the quiz.

Regards,
ARI Soft
