
Need help: Sum of Question for each Bank Category

Posted by sutriyono - 2015/07/10 02:07

Dear admin..

I'm newbie with PHP Code.

I want to make a module with Flexy Custom Module with several information about my quiz like this:

Math : 25 Questions

Biology : 73 Questions

etc....

Does anyone can help me, sir?

Thank you.

Hello,

You can order a custom development of this module.
