
quiz-link-nottry icon for failed/passed test

Posted by gagge123 - 2015/07/29 20:11

Hello!

I hope someone could help me with my problem ive been trying to solve this for 5hours but i cant get it to work.. :P

I want to add a icon for not-tried quest, another icon for failed quests and another icon for passed quests that should show up before the quizlinks in: <http://xn--jgarexamenprovfrgor-gwb0b.se/prov>.

ive found this code in the template css, i belive i can set my own pictures here?? if so? how do i do it? the original image seems to be `"/img/glyphicons-halfings.png"` but its not showing either?:

Thanks in advance for your help.

span.aq-quiz-link-nottry {

`/*star*/`

`width: 14px;`

`height:14px;`

`display: inline-block;`

`background-image: url("../img/glyphicons-halfings.png");`

`background-position: -120px 0px;`

`background-repeat: no-repeat;`

=====

You can use custom CSS rule (for example add it to site template CSS file) something like this:

```
A.aq-quiz-link-nottry {background-image: url(/images/headers/litenlogga.png); padding-left: 15px;}
```

Geat it is working fine! i put the code in the top of the template css file, should i out it in another row or is it okay? It seems fine anyway in the front end, will it disseppear when i update my template?

I would be glad if you could give me the codes for the passed and failed quizlink aswell :)

Thanks in advance :)

The CSS rule can be added at any place in a CSS file.

Discard the previous messages i got it to work, but the quizlink image is repeated severaltimes how do i make it no repeat? in the css?

Please see <http://www.ari-soft.com/images/fbfiles/images/ariquizerror.png> attached image:

ohh... i sorted that out my self too.

This was the could that i put in template css

```
A.aq-quiz-link-notpassed {background-image: url(/images/Jagarteori/ariquiz/ickegodkand-liten.png); padding-left: 50px;
background-repeat: no-repeat;}
```

```
A.aq-quiz-link-passed {background-image: url(/images/Jagarteori/ariquiz/godkant-liten.png); padding-left: 50px;
background-repeat: no-repeat;}
```

i added : background-repeat: no-repeat
and it works.

Another question every time i delete/update my cache the quizlink css rows disapear from the template css file, how can i prevent that?

You can add CSS rules to /components/com_ariquiz/themes/default/css/style.css file.
