
Ari Quiz Problem

Posted by babayorgun - 2015/09/02 21:58

1- Ari-quiz very slowly for responsive layout (especially now in the database of the number of exams). What can i do?

2- Quiz title see H1. How can i H3 or H4?

Hello,

1. Could you explain in more details what exactly slowly and how it is related to responsive layout?

2. See the following code in /components/com_ariquiz/views/quiz/tmpl/default.php template file:

I created the category title as the menu is very small. How do I make the H3 ?

Could you send a link to a page where you want to change titles and a screenshot where we can see what title(s) do you want to change?
