
http fail 500 after editing the category of a quiz

Posted by ensÄ¶ianer - 2015/10/15 05:27

Good Morning Support,

I've got a http fail 500 after editing the category of a quiz. I tried to edit it in list view by the button "mass edit" with many other quizzes and by the button "edit" for only this quiz.

please see attachment http://www.ari-soft.com/images/fbfiles/images/500fail_ariquiz.jpg

Hello,

Check that you use the latest version of the extension (v. 3.8.3). If it doesn't help, could you provide a temporary access to your J! backend by email so we can investigate the problem?

hey,

again I do not had the latest Version. Thanks for the hint!

I deleted the quiz and created a new one, which was also successful.

Kind regards
