
Quiz results not showing any more

Posted by kendulah - 2015/10/18 11:56

Hello,

I'd like to show the quiz results after the competition of the quiz.
I did configure the quiz to always show the results, but they simply don't show :(

Any idea?
Thanks

Hello,

If you want to show questions with user's and correct answers, set "Results settings -> Show detailed results" parameter to "Always" value in quiz settings.

Hi,

that's exactly what I did, I even created a new quiz to see if I screwed it up.

I tried it just now with a different computer to avoid cache issues without success.

Weird :unsure:

Could you provide a temporary access to your J! backend by email so we can investigate the problem?
