Hello,  
With ARI Quizz 3.8.4 and Joomla 3.4.5.  
It's not possible to save Quizzes and Quizz Categories.  
But it's ok with Bank Categories and Questions (Bank, Categories).  
Tests with different web browser, computer, etc.  
By changing Web Hosting, it's OK with some!  
Any idea of the parameters that needed by the extensions?  
Regards

Hello,

Could you provide a temporary access to your J! backend by email so we can investigate the problem?
