
Quiz not submitting after timer ended

Posted by domknight - 2015/11/12 14:41

Hi,

I am problem with the ARI Quiz, when someone takes the test and gets near the end and they run out of time it auto submits but the results so the have scored 0 when they have scored for example 9, is there a fix for this

Hello,

Open /components/com_ariquiz/controllers/question.php file, find "ajaxSavePage" method and replace the following code:

```
$skipTimeOver = false;
```

with the following one:

```
$skipTimeOver = true;
```

Thanks for that but I don't have that option in the php, do I just add it?

```
$retResult = array(  
    'result' => false,  
    'moveToNext' => false,  
    'showExplanation' => false,  
    'tryAgain' => false,  
    'questionId' => 0
```

Could you send the file by email?

Regards,
ARI Soft
