The extension supports ability to embed video and audio files to questions for example via AllVideos Joomla! plugin, but it doesn't support ability to show questions only when video or audio file is played.

how to do this??

Section C (26-32: 1*7=7 points; 33: 1.5 point; 34: 2 point; 35: 2 points)
Directions: In this section, you will hear a passage three times. When the passage is read for the first time, you should listen carefully for its general idea. Then listen to the passage again. When the passage is read for the second time, you are required to fill in the blanks numbered from 36 to 43 with the exact words you have just heard. For blanks numbered 44 to 46 you are required to fill in missing information. You can either use the exact words you have just heard or write down the main points in your own words. Finally, when the passage is read for the third time, you should check what you have written.
Students' pressure sometimes comes from their parents. Most parents are well (26) _____ but some of them aren't very helpful with the problems their sons and daughters have in (27) _____ to college, and a few of them seem to go out of their way to add to their children's. For one thing, parents are often not (28) _____ of the kinds of problems their children face. They don't realize that the (29) _____ is keener, that the required (30) _____ of work are higher, and that their children may not be prepared for the change. (31) _____ to seeing A's and B's on high school report cards, they may be upset when their children's first (32) _____ college grades are below- that level. At their kindest, they may gently inquire why John or Mary isn't doing better, whether he or she is trying as hard as he or she should, and so on. (33) _____, they may threaten to take their children out of college or cut off funds. Sometimes parents regard their children as extensions of themselves and think it only (34) _____ that they determine what their children do with their lives. In their involvement and identification with their children, they forget that everyone is different and that each person must develop in his or her own way. They forget that their children. who are now young adults, must be the ones (35) _____ what they do and what they are

We can create a new question type which will support ability to insert placeholders in question text. Something like this:

Most parents are well but some of them aren't very helpful with the problems their sons and daughters have in ...

, and etc. will be replaced with textboxes on frontend and it will be possible to define correct answer(s) for each placeholder and set number of points per each answer. If you are interested in it, we can discuss details for this custom development by email.
