Remove the progression bar

Posted by sochart - 2015/12/10 12:48

_____

Hi,
how can I remove the Completed Page 1 of 1 progress bar when I chose
to put all the question on the same page ?.
Thanks

_____

Hello,

Add the following CSS rule to a site template CSS file:

.aq-status-panel {display:none!important}

Regards,
ARI Soft

_____

I am using Purity III template. I've added .aq-status-panel to custom.css
in the template css folder but the progress bar still appears.

_____

Found !. There is a difference between the post on this website and the email I've got from you.
The email does not contain the code between brackets.

It works now, thanks.
