Hello could you tell me how to import and export the questions. I am moving the site to a new theme, and would like to export the questions so I do not need to put them in one by one.

Thanks.

Re:How to Import and Export Quiz Questions? Posted by admin - 2008/12/02 22:05

We plan to add such feature in future release. For now you may just import/export data from appropriate tables.

Regards, ARI Soft
