
Hide pagination row at the end of the quiz

Posted by brusamolino - 2016/01/15 17:40

Can you tell me how can i hide the pagination row at the end of the quiz?
Appear when i have the list of incorrect answers like in attach file

And how can i have the score without decimal? for example 1 and not 1.00

Thanks Luca <http://www.ari-soft.com/images/fbfiles/images/ariquiz-a22d08c7e36420f3cfbd65baa7c4320d.jpg>

Hello,

Add the following CSS rule to a site template CSS file to hide pagination:

```
.aq-dt-results #dtResults_pag {display:none!important;}
```

We will write how to change score format a little bit later.

About score formatting, "Extensions -> Language(s) -> Overrides" page on Joomla! backend, click "New" button, set "Language Constant" parameter to COM_ARIQUIZ_QUESTIONSUMMARY value and populate "Text" parameter with the following value:

Score is {\$UserScore|number_format} out of {\$MaxScore|number_format}. Elapsed time is {\$ElapsedTime}.
